## **AMENDMENT A**

MAIL STOP AMENDMENT Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

This is in response to the Office Action Date Mailed 12/28/2004.

## REMARKS

In the Office Action dated December 28, 2004, restriction to one of the following inventions was required under 35 U.S.C. § 121:

- I. Claim 1, drawn to a vector, classified in class 435, subclass 320.1.
- II. Claim 2, drawn to a method of isolating genes encoding a protein that regulates the expression of a gene of interest, classified in class 435, subclass 6.

The requirement for restriction is traversed.

Nevertheless, in accordance with the requirement, applicant herewith provisionally elects for examination in this application the invention of Group I, claim 1. In the event the restriction is made final and claim 2 is withdrawn by the Examiner, applicant reserves the right to file claim 2 in a divisional application pursuant to 35 U.S.C. § 121.

Attorney Docket No. WU-01267/1-US

In traverse of the requirement for restriction, applicant contends that the method of the Group II, claim 2, is common subject matter with the product of the Group I, claim 1, and both claims can readily be examined together. Applicant submits that a combined search made in the two subclasses designated by the Examiner for these two claims does not appear unreasonable or to present any material burden on the office.

In the event the restriction is made final and claim 2 is withdrawn, applicant notes and appreciates the Examiner's comments on pages 3-4 of the Office Action that applicant can avail himself of the provisions concerning rejoinder of the method claim to the product claim.

Respectfully submitted,

Scott J. Meyer
